Continuation of 11. does NOT place the application in condition for allowance because: Applicant has argued that prior arts do not teach displaying at least a magnified version of at least a portion of a selection element adjacent the active selection element. However, the combination of Rowe and Sciammarella et al. teach the limitation. While Rowe teaches multiple selectable elements being adjacent each other such as Sports, Basketball... as shown in figure 6. Sciammarell et al. teach two portions 25 and 26 of the thumbnail as shown in figure 1. In response to an input from the user to the selectable thumbnail portion 25, both the thumbnail portion 25 and the adjacent portion 26 are magnified. The combination of Rowe and Sciammarell teach the limitation.
